A QUIZ IS a form of game or mind sport in which the players exert their grey cells to answer the question. In our school Inter house quizzes on various topics were held for different classes from III to X on different dates for different subjects like Science, GK, Social Science and Math. Each team had 3-4 participants representing their respective house. They were made to sit in a semicircle in the computer lab. Firstly, the Quiz Master in each quiz explained the rules to the participants. Black Board of the lab was used as a scoreboard by the score keeper to keep the score. There was a time keeper
