July 6, 2017.

RIGHTLY SAID BY Epictetus “the greater the difficulty the more glory is in surmounting it. Skillful pilots gain their reputation from storms and tempests”.

The mid year 2017 witnessed a lot of hustle and bustle and curiosity amongst students mainly due to the delay caused by CBSE Board to declare Std. X result. This year the result of Modern. Sr. Sec. School were extraordinary remarkable. The students of X and XII have brought laurels to their school by outshining in academics this year. The persistent effort of students and able guidance and teaching by our worthy teachers have yielded sweet results. Finally the students are triumphant and have achieved their goals. The continuous efforts and hardwork of students when integrated with well planned studying and test schedule held in our school at regular intervals along with support and motivation provided by their families helped the students to reach heights. On the day of declaration of results, their joy knew no bounds. They were extremely happy and joyous. Out of 151 students, 17 students scored 10 CGPA which made the school management and teaching

faculty proud. Similarly in standard XII Muskan of Science stream scored 94% marks, Eshita Goyal of Commerce stream scored 92.2% marks while Navjot Kaur of Humanities scored 95% marks.

Our worthy Principal Mrs. Tripatjit Kaur and the whole staff congratulated the students for their excellent performance.

The student life is that phase of an individual where one learns the most and has potential to achieve the highest. Their dedication, hardwork, focus, and determination has helped them to overcome the obstacles and failures which they faced on their road to success.

They teach us all a priceless lesson that success is no accident but it is a result of one's honesty, character, integrity, faith, love and loyalty. Success can never be measured by one's intellect or knowledge but by one's determination and efforts. The school provides full support and guidance to all the students to bloom and outshine. They provide us with opportunities to rise and shine along with counseling required to take right decision at right time. We wish that all our rising stars do something extraordinary and pursue their career and reach to the zenith. For them the sky is the limit.
