DENTAL CARE IS an important aspect of general health care. However, one must not overlook the dental issues. Finding a good dentist can be often a difficult process, and it is important to find someone you feel comfortable with. Due to this, the management of Modern Senior Secondary School decided to aware the students about dental care so that they are fit in their oral health.

A team from Luxmi Bai Institute of Dental and Sciences Hospital from Sirhind Road, Patiala came to our school to make students aware of their oral health, importance of dental care and also suggested

Dr. Karan is a Dental Reader. Dr. Ranjana is a postgraduate student. Dr. Pradeep Kaur, Dr. Arshdeep Kaur, Dr. Simran, Dr. Harshinder, Dr. Navneet, Dr. Harshvir are all interns.

They started checking the students in their Mobile Dental Van which was fully equipped. The students were excited to go inside the van as the doctors were very friendly with them while examining them. They were talking to students so that they could feel comfortable. There was a proper provision of light. Dr. Harsimrit gave suggestions to students

some precautions to avoid dental problems. They started examining the students from standard 4th onwards.

There was a team of nine members headed by Dr. Harsimrit Kaur. She is a professor in the institute.

those who needed. She gave samples of Colgate to some students and advised them to brush their teeth twice a day. The resident doctor Mrs. Baljinder Kaur of our school managed the event.
