

# NEEDLE WORK

*~ Anamika Mandora & Parneet Kaur X-C ~  
Reporters, Modern School Life Magazine*

May 20, 2017.

We the reporters of Life Magazine visited Room No.44 where needle work activity was being done by the students of classes 6<sup>th</sup> to 8<sup>th</sup>. Twenty one students were present there. The students were using needles, threads, and scissors. They were using contrast of colours for designing and embroidery work on clothes. Mrs. Gian Kiran was their instructor .She told us that each student was taught basics of stitching and embroidery. They were also taught how to fix buttons on dresses. The students were showing their creativity and innovation. Madam told us that the students will be taught about crochet after summer vacation. She further added that there will be embroidery competition on 24th May, 2017. It was a nice experience to watch the students putting their talent on the clothes and enjoying their work.

Best of luck to the students for the competition.
