

PRAAYER TO PROTECT THE UNIVERSE FROM CORONA

May 16, 2021

**MSSSP Children: Prayer to Protect the Universe
from Corona**

Our dear Lord, beloved **Almighty**,

Give strength and courage for early recovery to the
Patients struggling in isolation,

lovingly surround every struggler with your
moonlight and cuddle to offer sound sleep.

Our Mother Earth, Super Mother of all,

You are Annapurna providing food,

Also empower their families with patience who sit
Waiting for them outside the hospitals.

Our adorable Ecosystem, known for balancing,
Please produce more and more oxygen as you have
Abundance of resources and assets,
So that every living being can respire and no one
Holds back for cylinders and tankers.

Our golden Sun, you are so hot,
As your superheated plasma wind can escape and fly
Into space and planets,
Please burn the virus with your radiations. We are
Sure that you can enlighten everyone.

Our Chanda Mama, the lovely moon,
You are the largest natural satellite, famous for your
Cooling, soothing effects,

Compassionate, tender, and kind,
Give your cosy lap to every labourer and migrant
Staying away from their homes.

Our dedicated Doctors, hardworking Nurses,
You are very precious and angelic for every
Individual battling for life.

We express our gratitude, take care of yourself as
You are an asset to mankind.

Our nears and dears, families, and loved ones,
The natural world knows balancing and is
Working In an organised manner,
Obey the safety rules and tell the Nature that you
Are disciplined like her.
Be positive and pray for everyone
