November 22, 2022

MSSSP organised an **Educational Field Trip** of class VI students to the **Verka Milk Plant (Patiala)** on November 21, 2022. The students

Manufacturing, processing and packaging of milk, curd and cheese.

The administrators of the Verka Plant interacted

were in a jubilant mood.

The objective of the trip was to make the students understand how milk from farms reaches their homes, its nutritional value, manufacturing and processing of milk and milk products.

The students were greeted warmly by the **marketing head Mr. Gurpreet Singh**. Students got first-hand information regarding the

with the students and informed them about the origin of Verka.

The students were very curious and showed great interest. The hospitality of the host was appreciable. Refreshments were provided to the students and the staff by the hosts.

The trip was indeed very successful and students received the first hand information.
