December 23, 2022

Mathematics week was celebrated at MSSSP from 17th to 22nd of December, 2022 to commemorate the **birth anniversary of Shri Ramanujan - a great Mathematician**. This special week concluded on 22nd December in which students participated with great zeal and enthusiasm.

Students of Grade 4th and 5th eagerly participated in **Maths Eye Poster Competition**. A

challenging enough. Students also learnt coordination amongst their group of four. They completed the task within stipulated period of time.

The little mathematicians of Grade 2 made **Christmas trees**. They correlated the celebration with triangles and sung a beautiful song "**We wish you merry Christmas and a happy Maths week**". The beaming smiles of kids made the occasion lively and cheered the teachers as well.

fun activity challenged the young minds of the students to find out the total count of objects of various shapes - triangle, rectangle, square, circle, etc. The students participated in groups and were given 3 minutes to complete the task. Although it seemed easy but deciding what to count was

The students also performed activities **like Skit, Poster making and Model preparation.**

Our goal at **MSSSP** is to make kids fall in love with Maths. We hope that they all enjoy fun filled activities related to Mathematics everyday and celebrate the subject like a festival.
