May 23, 2025

On **23rd May 2025**, an engaging **Maths Puzzle** session was organised for students of **Classes 9** and **10**, aimed at making mathematics both enjoyable and educational. The innovative activity involved solving a variety of mathematical problems to unlock clues in a **Bingo-style puzzle** format. This fun twist on traditional problem-solving promoted critical thinking, teamwork, and logical reasoning.

Students participated with great enthusiasm,

tackling mathematical challenges. The collaborative environment encouraged peer learning and friendly competition, making the session both impactful and enjoyable.

The success of the session was evident in the positive feedback from students, who expressed excitement for more such interactive learning experiences. The event truly demonstrated that when learning is blended with fun, the results can be both

displaying heightened interest and confidence in meaningful and memorable.
