Siddhauri Experience

Siddhauri experience was one of the wonderful experiences of my life. The whole three days of the trip were very memorable. I'll forever remember the memories I made with my friends and lovely teachers. The appreciation we got from the audience after our performance really boosted my confidence to do more in life. Everything was so nice and peaceful there. Everyone in the ashram were so sweet, playful and more importantly so helpful and warm. Ambience of that place was something I'll always remember and it touched my heart. The views, aura & devotion of people towards god were excellent. This was the first time I had ever gone to perform outside Patiala through school and all the teachers put all their might into making it a wonderful experience and even succeeded in it. I pay my gratitude to all teachers especially Rudrat Mam and Jaspreet sir who not only prepared us for the event but also took care of us like our parents do. I am very grateful that I got the opportunity to perform at such level and for all the fun I had exploring the town.

the appreciation we got and the experience I had. I am thankful to everybody who put so much efforts in making it a great experience.

We can say that we have done something unusual and away from normal life that we would share with others calling it our greatest achievement as we got oriented by such saintly spirits which is not easily available to everyone.

I thank Modern Senior Secondary School from the core of my heart to make my school life so different, interesting and valuable through this trip that will always be talked about whenever we will remember our old golden days.
